

Aesthetics and Anti-Aging Medicine Center  
Compounding Pharmacy Request Form  
Compounded Hormone Replacement Therapy

Compounding is the preparation of customized medications using pure ingredients. Pharmaceutical compounding was the standard method of providing prescription remedies in the 19th and 20th centuries, but with the dawn of mass drug manufacturing in the mid 20th century, the role of pharmacists as preparers of medications swiftly shifted towards that of dispensers of manufactured dosage forms. However, the “one size fits all” methodology is unlikely to meet the needs of all patients.

Here at Aesthetics and Anti-Aging Medicine Center, most hormone replacement will be in the form of a compounded prescription. Please choose from the following pharmacies listed below. If your preferred compounding pharmacy is not listed below, please fill in pharmacy name and phone number.

---

Heritage Pharmacy  
15 Midtown Park E  
Mobile AL 36606  
251-472-0814

Family Pharmacy Springhill  
4415 Old Shell Rd  
Mobile AL 36608  
251-300-3003

If you have another compounding pharmacy that you would prefer to use, please fill in below.
